

"For unto us a Child is born..."

Unto us many special children have been born, and each we try to receive as the Christ-child. We are given the opportunity to support the mothers and fathers, as special as Mary and Joseph, who have been entrusted with their care. It is sometimes a daunting task. So each year at Proyecto Santo Niño we celebrate the feast of Christmas with a fiesta that includes the story of Mary and Joseph seeking shelter in Bethlehem. This year our special children and their special sisters and brothers told the story. We also include a blessing of the children and this year we asked the children to bless their parents and siblings:

Mary and Joseph received the Baby Jesus when they didn't understand everything that God would need for them to do. Thank you for loving me and receiving me in this family.

May God bless you for all the ways you take care of me.

May God give you everything you need just as you give me everything I need.

May the love of the Holy Family hold our family together in love. Amen.
